# Skyward (SKY01)

Skyward is 9" high min., by 5.5 " wide. Skyward (at right) has an uplifting motion and it swirls to form an incredibly beautiful sculptural piece. Bubble inclusions and iridescent glass throughout give the form a visual complexity and make the cremated remains less apparent. Iridescent upgrade included.

## Memorial Tributes & Encased Memories color choices (colors may vary slightly)

Light colors will be harder to see cremated remains

## Iridescent Upgrades

Our glass containing the Iridescent Upgrade has fantastic multi-colored and reflective properties. This glass appears to have more than one color at the same time; the colors shift depending on the angle of view.

# Memorial Tributes

Memorial Tributes include Flames, Skywards, Ornaments and more. All of the tributes contain a small portion of your loved one's cremated remains. Our memorials list minimum sizes; sizes can vary slightly larger. Blown glass can contain air bubbles, imperfections and tool marks. This is how you know it is not machine made. The exact placement and density of the cremated remains can not be controlled.

## Perennial Flames (P005-SMALL), (P005- LARGE)

Our Perennial Flame Sculpture comes in two sizes. The large is 5" x 7" and the small is 4" x 5.5." Both are made in your choice of color with a beautiful iridescent glass swirled around with the cremated remains of your loved one. Iridescent upgrade included. Purple and red pictured above.

Memorial colors available on page 2.

Clear Dome

## Encased Memories

Our Encased Memories preserve perishable items that would be destroyed by the high temperatures of molten glass. Items like jewelry, hair, flowers and pet collars can now be showcased in a beautiful glass sculpture. After we receive your precious keepsake, we place it inside a hollow chamber in the sculpture and seal it with a special UV light-activated glass epoxy. This preserves your unique memorial forever.

*(Items shown inside encasements not included.)*

## Photo Wreath

(W001-SMALL, W001-LARGE)

The Photo Wreath frames your loved ones with an artistic black and white, laser engraved photo, surrounded by a wreath of colored iridescent glass and their cremated remains. It comes in two sizes: 6" across, 2.5" thick for the small and 7.75" across, 3" thick for the large.

Only one person in a photograph for the small photo wreaths. Up to two people in a photo for a large photo wreath, but the heads must be very close together.

Only one proof is included in the price of the Photo Wreath. Due to the engraving process being very different then a digital proof slight variations may occur in the final product.

## Boundless Heart

The Boundless Hearts are available in 3" or 4" min. diameter. Cremated remains are swirled in the center of the heart in your choice of colored glass. **Stands are sold separately.**

*Memorial Colors are available on page 2. Colors may vary slightly.*

Additional fee applies for etching.

# MemoriMetals

Our MemoriMetals creations are metal rainbow-colored crystals grown with love. Each metal crystal is grown from your loved one's cremated remains deep inside. The MemoriMetals crystal's message is of transformation and change, helping to adapt with calm assurance.

This natural process makes each item unique with its own shape and color saturation. We cannot predict the exact shape nor the exact amount of any one color in them.

They are fragile so please do not drop them. If one does break the metal can be sharp to the touch. Due to the nature of metal, the actual cremated remains will not be visible.

MM-Geode

The MemoriMetals Geode (pictured on left) is a metal hemisphere that opens to a rainbow display of crystals formed inside. Each Geode is a one-of-a-kind home as individual as the cremated remains it surrounds.

The MemoriMetals Geode — MM-Geode  
Minimum size 4" across x 1.25" deep, with a black wood stand. Engraved nameplate available for an extra cost.

The MemoriMetals Crystal (below) is an original crystal lattice structure formed with your loved one's cremated remains deep inside. It has a unique shape and rainbow pattern housed under a beautiful glass dome.

The MemoriMetal Crystal— MM-Crystal  
Minimum size is 2" across and comes with a glass dome and black wood base. The dome is 4.5"h x 4.75"w. Engraving on the dome is an extra cost. The crystal is fragile; for decorative purposes only.
